

## **CCS Mobile Training Center: *Pulling into a parking lot near you!***

The CCS Mobile Training Center, a 44 foot trailer, provides the latest in audio and visual equipment combined with a 12-seat computer lab for educators featuring both Windows and Mac platforms. The Center travels throughout the state to instruct educators on the use of interactive whiteboards, projectors, document cameras, digital cameras/video cameras, audience response systems, the latest software applications and more. CCS Presentation Systems currently trains over 3,000 educators each year at its corporate office in Scottsdale and its brand new CCS Training Center in Tucson, Arizona. Now with the Mobile Training Center, we can bring the computer lab directly to a parking lot at your location!

***Imagine the possibilities!***

For scheduling and rental information for the Mobile Training Center, please contact Jennifer Lane at [jlane@ccsprojects.com](mailto:jlane@ccsprojects.com)
