'Our Best Year Ever'

Greetings!

CCS Presentation Systems is one of the leading providers of sales, design, integration, installation, maintenance and training of audio visual equipment including: projectors, plasma & LCD displays, SMART Board interactive whiteboards, classroom response systems, digital signage, control systems, projection screens, audio systems and video conferencing to education, corporate and government clients across New England for over 12 years.

In CCS Nationwide news, we are proud to celebrate 20 years of quality service to the Audio Visual community. Here's hoping to 20 plus more years to come!

Awards and Certifications

CCS Receives Division of
Capital Asset Management
(DCAM)
Certification

On April 21st, CCS New England was awarded the DCAM Certification by the State of Massachusetts. This certification will help CCS New England with new projects coming up in summer of 2011 including a project with a local community college in northern Massachusetts.

For more information on the Division of Capital Management, please visit their website here.

For all of your audio visual needs, contact a CCS sales rep at (978) 256-2001 today!

Thursday April 14th was a very special day at CCS New England. The Governor of New Hampshire, John Lynch visited the office to see what CCS Presentation Systems is all about. Besides learning more about the products we sell, install, design and integrate, Governor Lynch was interested in the reason for our move from Massachusetts to New Hampshire back in June of 2010.

Governor Lynch asked who our clients were and really wanted to get to know the company and find a way to help us in any way he could. He joked that his commission rate was very low.

CBS Radio and the Nashua Telegraph tagged along for the visit so check out their articles in the CCS In The News section of the newsletter!

For any of your audio visual needs visit www.ccsprojects.com or contact a CCS representative at 978-256-2001.

Extron Unveils New Products at the 2011 National Association of Broadcasters (NAB) Conference

In mid-April, Extron took to the NAB Conference in Las Vegas to unveil more than 100 new products, including:

[TLP 1000 Series](#) 10" TouchLink™ Touchpanels

[IPCP 505](#) IP Link® Control Processor

[FOXBOX HDMI](#) - Fiber Optic Extender for HDMI, Audio, and RS-232

[Fiber Optic Cables, Termination Tools, and Testers](#) - Cables and Accessories for Pro AV Integration

[PowerCage™ FOX DVI Plus](#) Fiber Optic Extender for DVI-D, Audio, and RS-232

And so many more! With over 100 new products unveiled, Extron has your audio covered.

Featured Conference!

GreenStar 2011

Boston Convention & Exhibition Center
Boston, MA

May 3rd, 2011
8am-4pm

GreenStar 2011 combines the Environmentally Preferable Products Vendor Fair and Conference with STAR (Statewide Training and Resources).

It will bring contractors and purchasing officials together for a one-day conference featuring both "green" and conventional products in the same space, and a host of workshops focused on professional development, green business strategy, and innovative new products.

Mainly for State Officials and employees of the Commonwealth, if you haven't already registered you can register the day of the event at the front entrance.

For all of your SMART and audio visual needs visit www.ccsprojects.com or contact a CCS sales representative today at (978) 256-2001!

Check Out the SMART 800 Series Interactive Whiteboard at CCS New England!

SMART Introduces a New Class of Interactive Whiteboard

SMART is pleased to introduce the SMART Board™ 800 series interactive whiteboard, a new series that will provide the most natural and intuitive user experience yet on a SMART Board interactive whiteboard. By enabling two students to work simultaneously on the board, the new 800 series extends the company's leading interactive whiteboard product line to offer true student collaboration.

Features of the SMART Board 800 series:

- **Multitouch experience**-Enables two users to interact with the interactive whiteboard simultaneously with no special tools or multimode mode selection required
- **Freestyle interaction *** - Enables two users to work together, performing different tasks, anywhere on the board
- **SMART ink**-Ink-smoothing algorithms make handwritten annotations look smoother and more refined
- **Touch gestures *** -Accepts common multitouch gestures currently recognized in Microsoft Windows 7 and Mac Snow Leopard, including one- and two-finger gestures, such as pinching, zooming and tossing.
- **Object awareness** -Distinguishes between a touch input and object input, recognizing two different input devices - such as a pen tool and a touch input - for a more natural user experience
- **Multiuser Pen Tray**-Enables two users to pick up and use a pen tool and begin writing. Easy-to-use buttons on the Pen Tray make switching ink color, right-mouse clicks and accessing the on-screen keyboard effortless
- **Durable surface**- Surface is optimized for projection, producing no hot spots, and is compatible with dry-erase markers
- **Modular design**- Pen Tray enables the quick and easy integration of accessories, such as SMART projector controls
- **Locking pen mode**- Locks the SMART Board interactive whiteboard in pen mode so students can write, draw and make annotations with a finger, pen tool or other object

**Feature will be supported in SMART Notebook software upon release of updated software (SMART Notebook 10.7), expected March 2011.*
