Tools for Learning Spotlight

Introducing the SMART Document Camera 330 (SDC-330)

The new SMART Document Camera 330 (SDC-330) is replacing the SMART Document Camera 280 (SDC-280). The SMART Document Camera 330 enables teachers to quickly display and explore physical content within the same SMART Notebook collaborative learning software they use to deliver lessons. It also offers the following:

- Continued integration with current SMART products, including the SMART Table™ interactive learning center, the SMART Slate wireless slate and the SMART Podium™ interactive pen display.
- It is also designed to support integration with future SMART products.

Important new features, including the following:

- Lightweight, fold-flat design unique to SMART
- Easier image capture through a one-touch Capture to Notebook button
- Multiple connectivity options, including a DVI-D port and a USB hub

Become a Member of our Online Community

Find and share California-specific lesson plans, learn about grants and other funding sources, watch training videos, hear about the latest promotional offers, and stay up to date with ALL the latest educational technology by joining our online community, [SMARTERClassrooms](#). Sign up today and continue your training today - and every day of the month. And if you don't already receive this newsletter directly, please:

- Improved output resolutions, up to SXGA
- New, lower North American education price

Ask your sales consultant for more information on pricing and availability!

- SMARTBoard Curriculum Integration** -- August 13: 9 a.m. - 12 p.m.
- SMART Response Basics** -- August 12: 9 a.m. - 11 a.m.

Tips and Tricks

Create a Standards-Based Crossword Puzzle

Did you know that you can create a custom Crossword Puzzle in Notebook Software using your own content? The Crossword tool is a perfect way to create a standards-based game for students to

complete at the SMART Board, and is great for any content area or grade-level! Simply follow the steps below, or log-in at SmarterClassrooms.com to view the video.

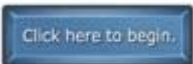

Step One: Open Notebook software and go to the Gallery Tab and find the Folder called "Lesson Activity Toolkit 2.0." Click on the plus sign to the left of it to expand the folder.

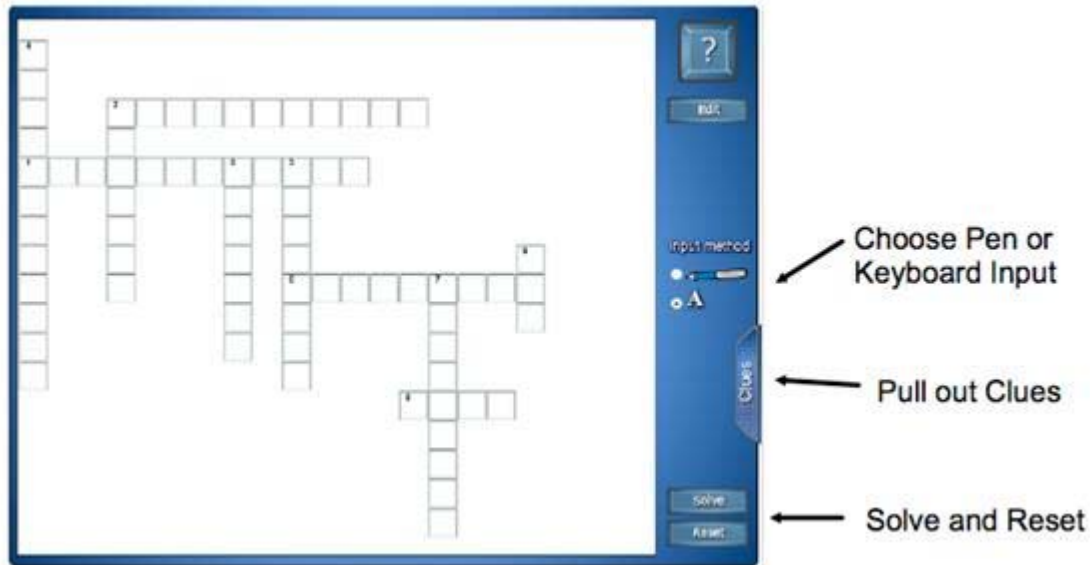

Step Two: Find the Folder called "Games" and expand this folder. Next, click on "Crossword" and drag the Crossword puzzle from Interactive and Multimedia onto a Notebook page.

Step Three: Select "Click Here to Begin" and enter your words and clues.

Step Four: Select "Generate" to create your Crossword puzzle. Work with your students at the SMART Board to solve the puzzle using a pen or keyboard. Students can pull Clues from the right side for help with each word, and there's even a Solve and Reset button!
