### Tools for Learning Spotlight

#### SMART Sync 2010

SMART Sync 2010 classroom management software is now available for the Mac platform. SMART Sync 2010 for Mac enhances the teaching and learning experience in computer-enabled classrooms, allowing teachers to monitor and guide student learning. Teachers can easily perform a variety of classroom management tasks with a click of a button, including monitoring thumbnail images of each student computer, and controlling any computer to highlight a student's work or to bring him back on task. With a practical set of features that enable smooth transitions between individual, small-group and whole-class learning, SMART Sync 2010 simplifies classroom management. Additional information on SMART Sync 2010 for Mac can be found at [smarttech.com/sync](http://smarttech.com/sync).

#### Features

**Mac compatible** - Supports Mac OS X 10.5.4 and higher

**Optimized for wireless classrooms** - Enables teachers to quickly connect to their school network to monitor and guide student instruction

**Monitor student activity** - View student computers as thumbnail images on the teacher computer. Simply click on a thumbnail to enlarge the image for a closer look.

**File transfer** - Transfer files to one or more student computers, quickly and securely

**Broadcast feature** - Broadcast computer screens to one or multiple student computers

**Customized groups** - Assign students to customized groups for quick filtering and monitoring

**Lock computers** - Lock computer screens with the click of a button to drive students' attention to the front of the room

**Language support** - Available in English only, with additional languages available in spring 2011

**Shut down** - Log off and shut down all student computers simultaneously from the teacher station

SMARTBoard Curriculum Integration -- Dec. 3: 9 a.m. - 12 p.m.  
SMART Response Basics -- Dec. 2: 10 a.m.-12 p.m.

## Tips and Tricks

### Notebook Measurement Tools

Notebook software now comes with Measurement Tools that you can use on your Notebook pages. These tools are designed to allow easy measurement, with the pen lining up automatically to the edge of the ruler and protractor. You can find the Measurement Tools in the Notebook Toolbar. These tools are great for measuring objects on a Notebook page, or for modeling for students how to use the tools. The images below describe the features of these tools so that you can start using them in your classroom! For a video detailing how to best use these tools, please log in to see our video at [smarterclassrooms.com](http://smarterclassrooms.com).

### TO ACCESS MEASUREMENT TOOLS

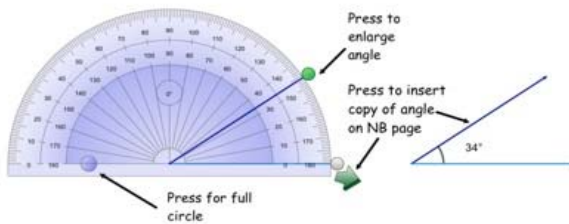

## RULER

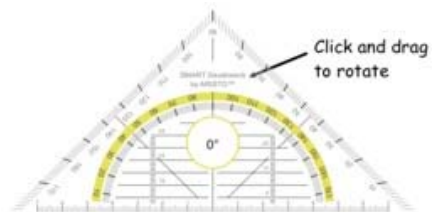

Use this tool to measure objects on a Notebook page.

## PROTRACTOR

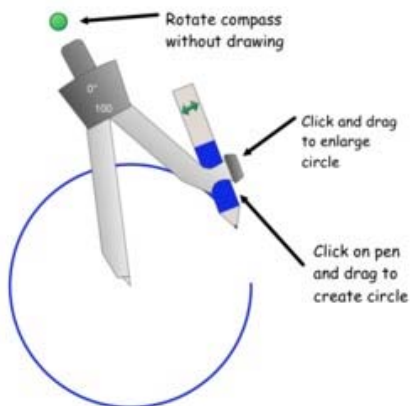

Use this tool to create and measure angles or full circles.

## GEODREIECK PROTRACTOR

Use this tool to measure the angle of objects on a Notebook page.

## COMPASS

Use this tool to draw circles, show the degrees as you draw, and to model how to use a compass with your students.

To see a video demonstration, go to [www.smarterclassrooms.com](http://www.smarterclassrooms.com) and log in.
