CCS ANYTIME CLASSES!

Start the year off right with new skills or simply a refresher on old skills you forgot!

CCS Anytime classes have subjects for everyone—teaching professionals, grant writers, accountants, fiction writers, marketing professionals, and many more!

Here are some examples of the classes you can take:

- [A to Z Grant Writing](#)
 - [Accounting Fundamentals](#)
- [Grammar Refresher](#)
- [Introduction to Microsoft Excel 2010](#)
- [Introduction to Microsoft Word 2010](#)

Greetings!

CCS Presentation Systems is one of the leading providers of sales, design, integration, installation, maintenance and training of audio visual equipment including: projectors, plasma & LCD displays, SMART Board interactive whiteboards, classroom response systems, digital signage, control systems, projection screens, audio systems and video conferencing to education, corporate and government clients across New England for over 13 years.

In CCS Nationwide news, we are proud to celebrate 20 years of quality service to the Audio Visual community. Here's hoping to 20 plus more years to come!

PACKAGES FOR TROOPS!

Every year CCS New England supports our troops in Afghanistan and Iraq by pulling together and donating items to a unit overseas. The 2011 Holiday season was no exception.

- Photoshop Elements 10 for the Digital Photographer
- Project Management Fundamentals

And so much more!

Our online courses are affordable, fun, fast, convenient and just for you! With over 300 courses and more than 24 hours of professional development at only \$85 per each six-week course, it doesn't get any better!

For more information & a course listing contact CCS today at (978) 256-2001 or visit

CCS NEWS

New Employee!

CCS New England is pleased to introduce the newest member of our sales team—
Ross LeBlanc!

Ross comes to us with 15 years of industry experience, working at PC Connection and eCoast Sales Solutions. At CCS, he is responsible for corporate accounts in New England and education accounts in Maine.

To speak to Ross about your next project, give him a call at (978) 256-2001 x201 today!

For all of your audio visual needs, please contact a sales representative at (978) 256-2001 today!

This year, CCS utilized the website www.ansoldier.com, a website updated daily that allows people to identify any member of the armed forces overseas and help them out with things they need and can't get themselves. CCS chose an Army Unit of Paratroopers stationed in Iraq where for most of the soldiers it was their 3rd or 4th holiday spent away from home. The leader of the unit put on the website a list of items that they desperately needed and CCS helped out with those needs for snacks, candy, toiletries, DVDs, socks, magazines, and so much more. Check out our pictures below to see what else we sent out troops!

For more information about AnySoldier.com, call CCS at (978) 256-2001 or visit their website at www.ansoldier.com.

For all of your audio visual needs, contact a CCS representative today at (978) 256-2001!

NEC ANNOUNCES NEW PRODUCTS FOR 2012—EA243WMM & X462HB

NEC recently announced 2 new additions to their MultiSync EA series and X Series Displays—the EA243WM and the X462HB.

The new EA243WM flat panel 24" monitor is the second addition to the new generation EA series for enterprise users who demanded high-performance. The new improvements include LED backlit, lighter weight, thinner/slimmer design and more energy efficient. The EA243WM also offers touch-sensitive controls that are integrated into the bezel, making display adjustments easier and more intuitive. Smart sensing technology automatically detects your work conditions to determine the proper display brightness and ambient light and human sensors.

One great feature of the newest addition is the monitor allows users to control up to six EA243WM units in a multi-monitor configuration.

Users will be able to simultaneously control many performance attributes of the multi-monitor setup through the master monitor.

The customized settings allows IT managers to set and restore preferred

2012 TRADESHOWS & CONFERENCES!

For all of your audio visual needs, please contact a sales representative at (978) 256-2001 today!

monitor settings with just one touch for vastly improved central control.

The MultiSync EA243WM ships with a 3-year limited parts and labor warranty from NEC and is available as of January 2nd, 2012!

The X432HB is the newest in the X Series LCD Displays. Unlike its previous models, this particular model is a professional LCD intended for digital signage applications. This LCD digital signage can be placed in areas such as video walls, drive-through menu boards and outdoor areas among others. For video walls, just one won't be sufficient, so NEC implemented the TileMatrix technology, which allows up to 100 X432HB to be combined to make a 10x10 video wall.

Some of the upgrades include a brighter display to accommodate high ambient lighting conditions for outdoor installation, working on both portrait and landscape orientations, has a 24/7 schedule with real-time clock and sophisticated remote monitoring capabilities. More specifications are below:

- Industrial strength, premium grade panels with additional thermal protections, internal temperature sensors with self diagnostics, and fan-based technology.
- Full 1080p high-definition resolution provides stunning detail.
- Built-in expansion slot allows for seamless integration for NEC/third party components.
- Ethernet and RS-232 control and communication allows for ease in remote monitoring.

Call your CCS representative to learn more about these and other NEC products at (978) 256-2001 today!

SMART BOARDS AT CCS NEW ENGLAND!

CCS New England now has several SMART Boards at our Nashua, NH demo room including the SMART Board 885ix Dual Touch and the SMART Board 8070i.

The 885ix Dual Touch offers students an extraordinary natural learning experience that makes it easy to interact with lesson content. It enables 2 students to instantly start working on lesson activities at the same time, allowing each student to work in a way that is intuitive to them.

The 70" LCD Interactive Display can help corporations and business of all sizes thrive in collaboration and teamwork. This allows more options for generating ideas and capturing feedback and ensuring all members of the team are working towards the same goal.

Call your sales representative right away to come in and take a look at these boards for yourself.

To learn more about the SMART Board 800 Series and the SMART Display 8070i call a CCS Sales Representative today at (978) 256-2001.
