Greetings!

CCS Presentation Systems is one of the leading providers of sales, design, integration, installation, maintenance and training of audio visual equipment including: projectors, plasma & LCD displays, SMART Board interactive whiteboards, classroom response systems, digital signage, control systems, projection screens, audio systems and video conferencing to schools, businesses, and government clients across New England for over 11 years.

→ CCS New England Moves to New Office Location in Nashua, NH

We are excited to announce that we have moved from our current 5,500 square foot location in Chelmsford, MA to a new 26,000 square foot location in Nashua, NH!

Our new facility will allow us to better serve our customers. We will have increased warehouse space, a state of the art training and demonstration center with the latest audio visual technology and plenty of room for future growth.

We are just 15 minutes north of our Chelmsford, MA location and within 45 minutes of Boston.

→ SMART Classroom Suite Software

Create. Teach Learn. Assess

SMART Classroom Suite is an integrated software suite designed specifically for teachers and students to use in a computer-enabled classroom. It combines four of SMART's software products: SMART Notebook, SMART Sync, SMART Notebook Student Edition (SE), and SMART Response CE.

Featured Project

Client:

University of
Massachusetts Boston

Project:

CCS designed and installed a student lab and conference room at the University's athletic complex.

The CCS Solution

Featured:

- Panasonic 65" Display
- Spectrum Industries Lecterns
- Sony Projector
- Extron MediaLink Controllers
- SMART Sympodium
- Da-Lite Projection Screen
- JBL Speakers

CCS News

CCS Receives Awards from Diversity Business

CCS New England is proud to announce that it was awarded as one of the Top 50 women owned businesses, Top 50 diversity owned businesses and Top 50 privately held businesses in Massachusetts by Diversity Business.

SMART Notebook allows teachers to easily create, deliver and manage interactive lessons using a variety of drawing, annotation, and presentation tools. It also offers quick access to all lesson materials from one convenient location.

SMART Sync helps teachers keep students focused on learning. The classroom management software provides thumbnail views of all computers in a class. With SMART Sync teachers can organize students into groups where they can work on assignments and share screens without leaving their computers.

SMART Notebook SE enables students to complete assignments and create their own interactive material using the same Notebook Software platform. Students also have the ability to easily organize their schedules, assignments and class notes.

SMART Response CE offers teachers an easy and effective way to assess each student's understanding of the lesson material. You can deliver spontaneous quizzes or planned tests and will instantly see the results which are automatically tallied and recorded in the built-in gradebook.

To learn more about the SMART Classroom Suite visit www.smarttech.com or contact CCS at (978) 256-2001 to speak with an education sales representative.

→ ClearOne INTERACT PRO Now Available

A professional audio conferencing system offering TRUE stereo echo cancellation at an unbeatable market price. The INTERACT PRO platform is a complete audio system with unrivaled audio performance and application flexibility- all with simplified configuration in mind.

Directly connects to enterprise telephones, PC and HD video conferencing systems and emerging Unified Communications endpoints. Allows for Skype, WebEx, Microsoft Office Communicator and all softphone applications using a laptop and LAN connection.

For more information contact your CCS Representative at (978) 256-2001 or visit www.clearone.com.

→ Sanyo Introduces Two New Ultra Short Throw Projectors with 3D Capability

Sanyo introduces the PDG-DWL2500 and the PDG-DXL2000, two new ultra short-focus projectors with 3D capability. Both projectors feature compact chassis of about half the size of conventional short-focus projectors. The PDG-DWL2500 is WXGA resolution with 2,500 lumens of brightness, and has an MSRP of \$1995. The PDG-DXL2000 is XGA resolution, producing 2,000 lumens and has an MSRP of \$1795. Both projectors are fully enabled for large screen display of 3D material.

CCS was also awarded as one of the Top 500 women owned businesses and one of the Top 100 Subcontinent Asian American businesses in the United States.

More CCS News...

CCS would like to congratulate sales team member Erik Dykes on receiving his Certified Technology Specialist (CTS®) Certification.

The Certified Technology Specialist (CTS®) certification program is recognized worldwide as the leading AV specialist credential. InfoComm has been offering its certification programs for over 30 years and are the only AV credentials to achieve accreditation through ISO and ANSI.

CCS is striving to have all sales, engineering and installation team members receive this certification.

Through a newly developed ultra short-focus mirror projection optical unit, both projectors operate at an extremely short distance from the display surface or screen. The PDG-DWL2500 creates an 80-inch image at a position only 12.6 inches from the screen, making it the shortest-throw unit on the market today. The PDG-DXL2000 requires only 15.1-inches for an 80-inch image. Both projectors offer a maximum image size of 110 inches (DWL2500) or 90 inches (DXL2000).

For more information on the PDG-DWL2500 and the PDG-DXL2000 visit www.us.sanyo.com or contact CCS at (978)256-2001 to speak with a sales representative.

→ CCS Reception at InfoComm 2010

CCS would like to thank all of the Manufacturers Partners, Audio Visual Consultants, and Architects who attended our reception at InfoComm 2010. It was a very successful event that brought together some of the top executives from audio visual manufacturers across the country. For A/V Consultants and Architects, it was a great opportunity to personally meet the executives of AMX, Chief, Christie, Da-Lite, Epson, InFocus, Kramer, Mitsubishi, NEC, Panasonic, Sanyo, and SMART!
