

## SMARTBoard Tips & Tricks

### New Features Added to SMART Notebook™ Software

Did you know that Notebook Software has launched a new version? This update is FREE to current Notebook users! You can download this version for free at [SmartTech.com/support/software](http://SmartTech.com/support/software), or you can update by going to Check Updates within the Welcome Screen on your current version of Notebook software. The list below explains the new features...

**Transparent SMART Notebook** – By clicking an icon, the SMART Notebook interface disappears while continuing to provide full functionality, allowing users to annotate over any image or application (Windows only).

**Interoperability** – Fully supports Microsoft Windows 7 and Mac Snow Leopard operating systems.

**Ruler** – Used to draw straight lines with digital ink and measure accurately. The ruler can be resized while maintaining scale.

(Continued on next page).

## Tools for Learning Spotlight...

### The Brand-New Ultra-Short-Throw SMARTBoard - The SB685ix

Experience interactivity like never before with the SMART Board 685ix interactive whiteboard system. As the world's first ultra-short-throw interactive whiteboard system, the 685ix combines an ultra-short-throw projector with a widescreen interactive whiteboard. The 685ix offers you unparalleled image quality, a precise touch experience and a large interactive surface for teaching and learning.

The system's ultra-short-throw projector, the SMART UX60, virtually eliminates shadows, glare and distracting projector light. It is positioned directly above the interactive whiteboard, projecting crisp, bright, **LARGE** images from only 12" away. And because the 685ix's interactive whiteboard is widescreen, it has 20% more working space than a standard interactive whiteboard.

See <http://www.smarttech.com/> for further details on the entire SMART interactive whiteboard line, and ask your local CCS sales reps for details on pricing and availability.

Tips & Tricks continued:

**Protractor** – Can be used in 180° or 360° modes. The angle ejector allows users to set an angle on the protractor and instantly input it into the SMART Notebook lesson.

**Compass** – To easily create perfect arcs or circles.

**Math shapes** – Mathematical shapes, including perfect circle and perfect square; isosceles, equilateral and scalene triangles; and regular polygons.

**SMART Exchange Integration** – A link to the SMART Exchange gives users quick access to a wide range of online teaching resources.

**Update to the following new versions TODAY:**

- Windows Notebook: 10.6.94.0
- Windows Drivers: 10.6.48.0
- Mac Notebook: 10.6.95.0
- Mac Drivers: 10.6.48.0

Training Classes Available from CCS. . .

**SMARTBoard™ Basics (Notebook™ Software 10) – FREE (regularly \$89 per person)**  
 This 3 hour hands-on workshop offers a comprehensive overview of the SMART Board interactive whiteboard hardware and basic functionality. The Digital Ink Layer, Ink Aware applications and basic SMART Notebook functions are also explored. This course will get you familiar with your SMART Board so you can begin using it in your classroom.

**SMARTBoard™ Beyond the Basics (Notebook™ Software 10) - \$89 per person\***  
 This 3 hour hands-on workshop discusses everything and anything you ever wanted to know about the SMART Notebook software. Features such as customization, themes, the screen capture tool, adding sound and linking files, working with tables, adding video, page recording and organization within Notebook are just some of the topics discussed.

**SMARTBoard™ Curriculum Integration - \$89 per person\***  
 This 3 hour hands-on workshop explores ways to effectively integrate your SMART Board into your curriculum. Add interactivity to lessons you have already created, explore online resources, and learn quick and easy ways to create engaging lessons based on your content standards. Ways to engage your students are discussed while we work with you to create a standards-based SMART Board lesson.

**SMART Response™ Basics – FREE (regularly \$89 per person)**  
 Join us for a hands-on demonstration of how student response systems can increase student engagement in your courses. *SMART Response was formerly known as Senteo™*

**SMART Slate™ Wireless Tablet - \$439 per person\***  
 2 hour hands-on workshop. **Each participant will leave class with their own SMART Slate wireless tablet for use in their own classroom!**

**Document Camera 101 - \$835 per person\***  
 2 hour hand-on workshop. **Each participant will leave class with their own document camera!**

**CUSTOM Training is also available - Just Ask! - Price TBD**

*\*Payment instructions will be given after online registration is confirmed.*
