**CCS Presentation Systems Introduces CCS Boost
Portable Classroom Audio System**

SCOTTSDALE, Ariz. – (August 21, 2009) – CCS Presentation Systems, the largest integrator of audio and visual equipment in the Southwest, today announced the introduction of CCS Boost , a new wireless classroom audio system ideal for classrooms, conference rooms and other group settings.

CCS Boost is a complete, portable, dual-channel infrared sound system. This lightweight system features a wireless teardrop microphone and an optional handheld microphone for the students.

CCS Boost can be integrated with additional audio and visual equipment and is available exclusively through CCS Presentation Systems' 24 locations throughout the country. CCS Presentation Systems has dozens of manufacturer partnerships which allow it to offer the latest technology and equipment to customers in the corporate, government and educational sectors.

About CCS Presentation Systems, Inc.

Since 1991, Scottsdale, Ariz.-based CCS Presentation Systems has served customers in the corporate, government and educational sectors. CCS provides full-service integration, installation and maintenance of audio and video equipment, including interactive whiteboards, projectors, LCD & plasma displays, audio systems, document cameras and more. The company has expanded from a two-person operation to one of the largest A/V integrators in the U.S., with more than 300 employees, sales offices in 27 locations and annual sales in excess of \$150 million.
