## **CCS Opens One-of-a-Kind Manufacturer Product Showcase**

Facility is A/V industry's first fully-functional 'Design Center' showcasing products in real life settings

**SCOTTSDALE, Ariz. – (February 12, 2009)** – CCS Presentation Systems, the largest integrator of audio and visual equipment in the Southwest, today announced the launch of its new quarter million dollar CCS Manufacturer Product Showcase featuring state-of-the-art A/V technology from more than 30 manufacturers.

The Manufacturer Product Showcase is housed in a new 3,000-square-foot wing at CCS Presentation Systems' Scottsdale corporate headquarters. It includes:

- nine interactive demonstration rooms outfitted to model a variety of a/v installations for side-by-side product comparisons
- a media studio with Green Screen technology and editing software
- corporate business center with high definition video conferencing technology
- K-12 and higher education classrooms integrated with the latest technology from whiteboards to slates and digital presenters and interactive pen displays
- central control station for Hi-def Satellite, Blu-ray and computer source options
- surveillance and security technology systems

"Our Showcase is a first for the industry and provides a cutting-edge facility that shows the latest in A/V technologies side-by-side, the best manufacturers, eco-friendly product lines and offers a behind-the-scenes look at project installations and design," said John Godbout, founder and chief executive officer of CCS Presentation Systems. "Now corporate, hospitality and educational clients along with product vendors have a design center environment they can walk through that will help them match products to needs."

### **Products at the CCS Manufacturer Partner Showcase:**

Epson will be featuring wide screen resolution projectors, their eco-friendly inkjet printer and document imaging scanner, all in a fully functioning space, complete with environmentally conscious designs.

Panasonic will include their new LCD multimedia projector, complete with a 10,000 hour self maintaining air filter. The latest in large format plasma displays will also be featured.

## **CCS Manufacturer Product Showcase – PAGE 2**

Mitsubishi features the latest in projection systems and LCD displays for high definition video conferencing.

NEC's 2 x 2 video wall comprised of 4 40" LCD displays will be the focus of their space and SMART Technologies will use two 58" plasmas to show collaboration tools for the corporate market.

In addition to pioneering the Manufacturer Product Showcase, CCS is an innovator in audio/visual training among educators and corporate professionals. CCS trains more than 2,000 educators each year through its centers in Scottsdale and Tucson and its Mobile Training Center, which debuted in March 2006. The Mobile Training Center includes a 12-seat computer lab featuring both Windows and Mac platforms and provides access to the latest audio and visual equipment for training corporate and educational clients. CCS instructors teach administration and faculty members, to use interactive whiteboards, projectors, document cameras, digital and video cameras, audience response systems and more.

### **About CCS Presentation Systems, Inc.**

Since 1991, Scottsdale, Ariz.-based CCS Presentation Systems has served customers in the corporate, government and educational sectors. CCS provides full-service integration, installation and maintenance of audio and video equipment, including interactive whiteboards, projectors, LCD & plasma displays, audio systems, document cameras and more. The company has expanded from a two-person operation to one of the largest A/V integrators in the U.S., with more than 300 employees, sales offices in 11 states and annual sales in excess of \$150 million.
