CCS Presentation Systems Completes Phase One of Tempe Public Library Project

SCOTTSDALE, Ariz. – (December 22, 2009) – CCS Presentation Systems, the largest integrator of audio visual equipment in the Southwest, today announced its Phase One completion of the Tempe Public Library A/V installation.

The Tempe Public Library renovation includes two public meeting rooms, seven conference rooms, a computer lab and the youth Story Time room in the 120,000 sq. ft. facility. CCS was selected to update these spaces with presentation technology. The public meeting and youth Story Time rooms will share a portable lectern, which includes an ADA hearing assist system, microphones, document camera and Crestron room control. Scheduled to begin in the spring of 2010, Phase Two of the project will include audio visual equipment for the conference rooms and computer lab.

“We’re happy to be working with the Tempe Public Library to implement a more modernized facility and to help improve the community’s resources,” said founder and CEO of CCS Presentation Systems, John Godbout.

CCS serves customers in the corporate, government and educational sectors. The company sells, installs and services equipment as well as trains clients on the use of A/V technology. CCS offers multiple product lines to enhance presentation effectiveness and customer experiences including interactive SMART™Boards, LCD & plasma displays, projectors and projection screens. Founded in 1991, CCS was started by a husband and wife team and has grown into one of the largest A/V integrators in the U.S. with more than 300 employees and sales offices in 13 states.

About CCS Presentation Systems, Inc.

Since 1991, Scottsdale, Ariz.-based CCS Presentation Systems, has served customers in the corporate, government and educational sectors. CCS provides full-service integration, installation and maintenance of audio and video equipment, including interactive whiteboards, projectors, LCD & plasma displays, audio systems, document cameras and more.
