To whom it may concern;

I am very pleased to write this letter of recommendation for CCS Presentation Systems. They have just recently installed a projection and control system in our High School cafeteria. The installation was a great success and we're very pleased with our new system. The installer worked with us to do the installation at a time that would not interrupt our classes, which was an additional benefit to us.

Our sales representative from CCS Presentation Systems, Brian MacGee, was very responsive, flexible and easy to work with. He followed up after the installation to make sure we were pleased with the product and installation. We will look forward to working with them in the future. It is without hesitation that I recommend CCS Presentation Systems.

Sincerely,

Glennis Zimmerman  
Assistant Superintendent, USD 465

*The mission of USD 465 is to provide all students opportunities to gain knowledge and skills necessary for successful living in a changing world.*
